LOGISTICK, INC

Innovators of Freight Securement Systems®

The complete **INSTALLATION** guide for **Pallet Cleats** for use with wooden pallet and Logistick product.

For best results, please read through all instructions prior to installation.

- 1 Installing Pallet Cleat:** Place claw side down and sidebar facing outward. The sidebar needs to be available for nailing to pallet. Slide wooded pallets underneath the corner of the wooden pallet as shown. Nail or screw Pallet Cleat to pallet to add extra strength
